# STOCK CAR Racing

Taken during the meeting held at Cowley Stadium way back in March, 1955, this action shot shows LOFTY WEST (15) spinning PETE TUCKER (85), whose familiar patterned front bumper styling remains much the same today—over three years later.

## THURSDAY, 23rd OCTOBER, 1958

Final Meeting, 1958 Season.

7.45 p.m.

COWLEY STADIUM, OXFORD

PROGRAMME ONE SHILLING

### 220 Broken Friender Vise 22

## **BETTER STILL**

THOUGH it was a little cold last Thursday, the fans who braved the windy blast must have seen plenty to warm them during the very hectic and exciting meeting that was staged. Voted by many as the best of the three, it had everything-and was so fast !

Two men dominated the racing, local driver Fred Mitchell and his rival of the entire season, Doug. Wardropper from Ipswich. Fred fought magnificently to snatch a win in the heat, passing Doug. near the end of the race.

In the final it was Doug. from the start to finish. Though Fred never gave up trying, he was hampered by a slipping clutch—and he was, in fact, lucky not to be passed by Aubrey Leighton, who was third.

Once again we saw spinning and turning, some amazing fence crashes and a turnover by Charlie New, and really fast, cut-and-thrust racing that had everyone on their toes. It was gratifying to hear the encouraging cheers given to the local favourites.

Drivers put the show on when they are out on the track, but the slickness in the presentation starts in the pits and is dependent on the pit marshal and his staff. I'm sure you will agree that our programmes have gone with a zip so essential to keep things moving on these cold evenings. Working under difficulties that are not always appreciated-lack of space and only one narrow entrance and exit—our men on the spot have done nobly in this direction. We are proud of their work-and the co-operation of the drivers and breakdown crews.

With the winter just around the corner, the cold, dark nights have been made cheerful and bright by the stock car drivers during the past three weeks, but tonight our fourth presentation will be our last for this season.

We hope that you have enjoyed the change, thank you for your continued patronage, and hope that we shall perhaps be able to present stock car racing for your approval at earlier stages during the summer months of 1959. We'd like to thank the Oxford management, and particularly Ted Flanaghan, who has been very kind and co-operative, guiding us through some of our difficulties and preparing a fine track that has helped tremendously with the racing speeds.

The boys are ready for the final meeting at Cowley. You have already made some of them your own favourites, so as they come out for their races give them a cheer and they will be putting something extra in their dicings-just for you. Roll 'em !

#### Another picture of the March 1955 meeting at Cowley. Which way is the right way?

successive finals earlier this season, Doug. started a winning streak at the

WHAT a great driver is Doug. Wardropper (5). Already the winner of five Sunday meeting before our last meeting here. At Brafield he won his heat and the final, came to Cowley last Thursday and won the final after being second in the heat. The following night he went to Woolwich and, after a third in the heat, went on to complete a hat-trick of final wins.

No wonder he is national point-scoring champion this season and winner of more prize-money than any other driver ever before in stock car racing's five-Since 1954 : The Stoxnet Archive year history.

A first-year driver who has shot to the front by some fine performances these past few weeks at various tracks is Ron Peploe (270) from Basingstoke. Ron hung on grimly to his second place in his heat last week and was at one time going well in the final until he was concerned in the Charlie New pile-up on the pit bend. Ron has met with moderate success at Staines Stadium this year and, although

a 'novice' by comparison with some of the stars, is learning fast and is not afraid to get 'stuck in' when the occasion demands. Mixing it with the experts is quite a frightening affair and Ron is proving that he has the makings of a star driver in the near future.

Did you see that two-wheel balancing act performed by Trevor Frost (68) last week? After hitting a barrel, his car ran quite some distance on two wheels and was worthy of one of the American-style rodeo motor-car acts. Then, when the car did come back on to four wheels, he drove on as though nothing had happened and was actually sixth in the final. Trevor is another driver who has come on by leaps and bounds this year, and his successes at all tracks are the result of a reliable car and a never-say-die driving style that has paid dividends. He ranks in the top ten drivers in the country in the national ranking list. From Ipswich, Trevor often travels in company with his townsman, Doug. Wardropper, and, should the occasion demand, they sleep in the vans of their ex-fire brigade transporters, which are fully equipped with water, radio, beds and cooking stoves. What, no television?

#### **PIT WHISPERS**

Overheard by PETER ARNOLD

It is good to hear you fans cheering for the local drivers when they come out on to the track. It really does make them feel at home-and as if you care whether they win or not. Keep it up for tonight's meeting.

\*

\*

\*

What a wonderful fight Marston driver Fred Mitchell (38) put up against his old rival Doug. Wardropper last week. Their scrap in the heat was one of the classics of stock car racing and one of the best two-car duels I have seen for a long time. That Fred was able to come through from behind is amazing, for his large saloon car takes some handling on the bends, while that of his rival sits the track perfectly. Fred had clutch trouble in the latter stages of the final and just managed to hold on for second place. The rivalry will be renewed tonightso give them a shout. Two grand drivers.

A word about our promoter, Gerry Dommett. Although he is not driving in his own promotion, Gerry is no mean performer when he gets out there on the track, and only recently won the 'Redex' national championship at Coventry against all the top boys in the sport. He has been driving ever since the first meeting at Plymouth way back in 1954 and has met with considerable success in his special light coupés.

Since he went in for promoting, he has presented stock car racing at Ringwood Stadium, near Bournemouth, at Weymouth, at Pewsey Carnival-a special demonstration meeting-and here at Oxford. A live-wire chappie who hopes to extend his scope next season by opening other tracks in the West of England. As a sideline he has sponsored a stunt team and they have often performed during the stock car meetings.

Promoter GERRY DOMMETT receives the 'Redex' National Trophy from the hands of the racing representative, VERNON PECKHAM, with commentatorjournalist PETER ARNOLD looking on. This was taken at the Brandon Stadium, Coventry, where Gerry had his major success at the beginning of September, 1958.

A typical end to another good car. Crunch !

## RULES OF RACING

- 1. All drivers must wear crash helmets and have their safety belts securely fastened.
- 2. No driver may drive with his arm or other part of his body outside the car.
- 3. There may not be more than one occupant of the car.
- 4. All cars must start under their own power.
- 5. Cars must line up as directed by the Starting Marshal in the order in which they have been drawn.
- 6. Cars will move off to a rolling start together and must not change position until the Starter drops the Green Flag.
- 8. Cars may drive where they like in any direction on the track or on the green, but a lap only counts as completed when a left-hand circuit has been made, going outside both posts at the end of the green and finishing at the line or a projection thereof to the centre.
- 9. If the Yellow ("Caution") Flag is waved, drivers must proceed with care without changing positions until the "All Clear" is given by the waving of the Green Flag.
- 10. If the Red ("Danger") Flag is waved or the Red danger lights are switched on, all drivers must stop immediately.
- 11. The Chequered Flag will denote the end of the race.

#### SIGNALS IN USE AT THIS MEETING

The Green Flag is dropped at the starting line when the race is on. During the race it signifies that the course is clear. The Yellow Flag warns drivers to use caution but not to change positions. It is used when "wide open" driving is not permitted. The Red Flag is used to denote that the race has been stopped, and the Black Flag to order a car back to the pits. The Chequered Flag indicates the end of a race.
